Australian Dental
Association Victorian
Branch is now on
facebook

FACEBOOK - CHILDREN'S TEETH

Mums and dads on Facebook are now able to find information and learn about their children's teeth using the social media. The Australian Dental Association Victorian Branch recently launched it's Facebook page "Caring For Your Kids' Teeth". The ADA Victorian Branch's move into the social media aims to provide oral health information and education in a quick and easy format.

TEEN DENTAL VOUCHER - MEDICARE

The teen Dental Program allows eligible teenagers to claim their routine exam and cleaning. Eligible teenagers will be sent vouchers by the government. Patients will be able to take their voucher and receipt to Medicare to claim the rebate. These vouchers are valid until the 31st December. Please be sure to use the vouchers throughout the year so you don't miss out.

SMS CONFIRMING FOR APPOINTMENTS

Many of you are probably aware we now have the SMS appointment reminder service up and running. We are pleased to say it is working with great success.

EMAILS WILL SAVE PAPER

In January 2010 we started to send your six month reminder notices by email to save paper. We are happy to announce 62% of patients are now receiving emails. To help you can update your email address with us by phone or in person. The email will be sent from Ferrari Dental Care for those who need to adjust their spam filter.

DENTISTS FOR CLEANER WATER

The Australian Dental Association Victorian Branch (ADAVB) recently adopted the ISO 26000 Guidelines on social responsibility. From the guidelines has come the *Dentists for Cleaner Water* program. The program involves the installation of an ISO compliant amalgam separator.

Some time ago Ferrari Dental Care invested in this equipment to filter out harmful wastes that would normally go into Melbourne's waste system. We are very pleased to see the ADAVB adopt these guidelines and look forward to other programs to come from these guidelines.
